

Semler's Quality Brand Relationships

Having surpassed its 100th anniversary, Semler Industries is a 3rd generation-run family business proudly boasting a 50+ year tradition in supplying solutions to our customers' industrial liquid handling and filtration needs. Semler's access to over 15,000 products, (including 4,400 inventory positions) allows us to serve customers in over 250 industries world-wide. Semler selects only the finest suppliers and greatly values our relationships with

such, some spanning over 5 decades. Semler is an industry-proven company with a proud history and time-honored values, but make no mistake. Semler is tireless in pursuit of our promise to supply customers with the cutting-edge solutions they need, when they need it, where they need it, and at good value. We honorably represent the following suppliers, among others:

Skills in Handling Solutions

Semler Industries is proud to provide industrial liquid handling equipment to our 4,000 valued customers including American Airlines, Abbott Labs, BP and Caterpillar. This universal acceptance of our solutions is proof that our products and business strategy is

appropriate and well-received in the marketplace. Our Product Specialists are technical experts in the systems and products we are proud to offer. A general list of our liquid handling, filtration products and system capabilities is located below.

50+ Years of Expertise with Chemicals & Petroleum...

...have now converged into the highest quality, most comprehensive solutions for Diesel Exhaust Fluid storage, transfer and dispensing.

Introducing Semler's newest solution, the DEF-Distributor™ 70 Transfer System

SEMLER INDUSTRIES, INC.

Skills in Handling Solutions

Since 1905

Semler Systems – We Design, Engineer and Build Liquid Handling Solutions

We are equipped with extensive in-house design and manufacturing capabilities, making us one of the best “one stop” sources for liquid handling solutions in the country. Computer-aided design, combined with skilled component selection and fabrication practices, assure a cost-effective, high-quality system, time after time.

CUSTOM-FABRICATED SYSTEMS

- Pump/Metering/Filter Assemblies
- Drum Filling Systems
- Tank Humidification Systems
- Cooling Tower Filter Systems
- Natural Gas Processing Systems
- Ozone Sanitizing
- RO, UF and UV
- Loading & Unloading Skids
- Booster Pump Packages
- Portable Systems
- Lube Oil Flushing Systems
- Pump/Meter/Filter Assemblies-Portable & Stationary
- Custom Fabricated Systems to Fit Your Application
