

## DIESEL EXHAUST FLUID TRANSFER EQUIPMENT

### DD-70 Options

#### Pump Assembly Options:

- Stainless steel pump
- Gas powered engine
- Hydraulically driven pump
- Gas powered generator to power electric pump motor and electric rewind hose reel option

#### Meter Assembly Options:

- Turbine meter
- Electronic register
- Electronic printer
- Pre-set
- Non Weights and Measures approved meter

#### Hose Assembly Options:

- 230V AC rewind reel
- 12V or 24V DC rewind reel
- Manual (hand-crank) rewind
- Additional hose reel capacity and longer hose lengths
- Drumming nozzle, closed-loop, dry-break, and quick disconnect fitting packages

#### Filter Housing Options:

- Stainless steel bag housing

### DEF-Distributor™ **DD-70**

Operates at 70 GPM\*

Approximate Footprint:  
48" W x 48" L x 60" H

*Ideal for mobile bulk transfer from tanker truck to primary storage tanks, bottom filling totes, filling mini-bulk systems, and servicing high volume customers.*

### DD-70 INCLUDES

- 70 GPM\* nominal flow rate
- Self-priming, seal-less mag drive pump with run dry capability
- 230V AC, single phase motor with manual motor starter
- 25' power cord with plug
- Positive displacement flow meter
- Mechanical register and printer
- OEM strainer and air eliminator assembly
- Spit tank plumbed to air eliminator
- Weights and Measures approved for custody transfer
- Spring rewind hose reel with four-way roller assembly
- 1.5" x 20' Suction hose with MNPT ends
- 1.5" x 50' Discharge hose with MNPT ends
- Stainless steel cartridge filter housing with pressure gauges and drain ports
- Reinforced carbon steel base frame (painted)
- Base forklift and pallet jack accessible
- Integrated welded and flexible stainless steel piping connections
- All fluid contact equipment meets ISO 22241-3 standards for material compatibility
- System is passivated, tested, flushed, sealed and crated for quality assurance

\*Flow rate based off open hose ends.

Unit shown includes: 230V AC electric motor, positive displacement meter, mechanical register and printer, 230V AC rewind hose reel, standard hose lengths, stainless steel cartridge housing, gauge panel, and forklift only base.

**Semler's Complete Line of DEF-Distributor™ Transfer Equipment**

**Model DD-25**  
Operates at 25 GPM\*

**Model DC-30**  
Operates at 30 GPM\*

**Model DD-45**  
Operates at 45 GPM\*

**Model DD-70**  
Operates at 70 GPM\*

**Model DD-120**  
Operates at 120 GPM\*

**Model DD-250**  
Operates at 250 GPM\*

\*Flow rate based off open hose ends.
