### High Flow Transfer Skids

Fuel jobbers need the ability to load and unload trucks in a safe and efficient manner. With high-flow to low-flow options, Semler's line of fuel transfer equipment can handle any type of application.

### Blending and Injection Systems

Whether you are providing fuel in a retail setting, commercial fleet or at the bulk plant level, every location requires high-quality fuel. Having a reliable system to achieve accurate blend ratios or inject additives is key for high-quality fuel.

### Stationary Fuel Maintenance Systems

Maintaining fuel integrity is always important but is especially vital where backup power is required. The PetroPolisher™ Permanent series will give you peace of mind in these mission critical and emergency settings.

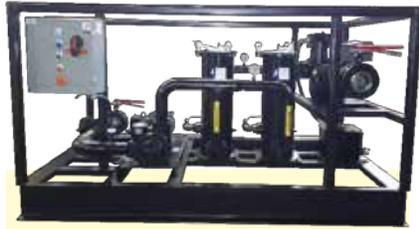

### Portable Fuel Polishing Carts

Offering fuel polishing for your current customers' tanks is a great source of added revenue for your business. The flexibility of a mobile system will keep their equipment running.

## Semler's Line of Fuel Equipment

**Fueling Systems for Mines**

**Portable Fuel Transfer Carts**

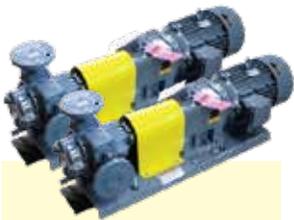

**Dispensing Systems**

**On-Demand Fueling Packages**

## Semler's Core Distributed Products

**Pump Assemblies**

**Meters & Other  
Instrumentation**

**Absorbent Media  
& Spill Kits**

**Facet® High-Capacity  
Fuel Filters**

**Hose Reels**

**Hose and Couplings**

Semler Industries brings over 100 years of meeting customers' demands and 50+ years serving the petroleum and chemical markets together to meet the demands of fuel manufacturers, distributors, and users. From low-flow dispensing to high-volume transfer, to blending and polishing equipment, everything we do is focused on maintaining the quality of the fuel and making it easy for you to handle.
