

POTABLE WATER CABINETS

STANDARD

GROUND SUPPORT EQUIPMENT

Semler Industries' reputation for innovative design and quality construction has resulted in our cabinets at thousands of gates in hundreds of airports around the world. Our attention to even the smallest of details makes our cabinets less costly and simple to operate, safe to use, and easy to maintain. Our technical team will assist you with selection of the perfect unit, customized just for your needs.

PWCs that meet the demands of every climate:

SI-1000 – Warm weather applications that never reach subfreezing temperatures.

SI-1500 – Moderate weather applications that occasionally experience subfreezing temperatures.

SI-2400 – Cold weather applications that frequently experience subfreezing temperatures.

SI-3000 – Extreme applications that often experience severe subfreezing temperatures.
